

OUR CHALLENGE IS TO GET A TRUST FROM OUR CUSTOMERS....

...THEN THE COOPERATION WITH ASTA COMPANY IS CONTINUING....

Starting from 2007, when we have sold the first machines in Austria, we have continued an excellent technical cooperation, continuously supplying other N.T.T. equipments to ASTA Austria and its subsidiaries. Today we are proud to announce, that this cooperation becomes more important and together we are working in new and important project for small flat wire production. Thanks to ASTA for his trust in N.T.T. Company, we are going to supply several lines of the new enamelling machine EVO FLAT 20. This is the important challenge for N.T.T., to get and maintain the trust from our customers. With this new ASTA order, N.T.T. is producing 156 lines of flat wire in 9 years and give us the right reputation of the flat wire machine leader in the global market.

.....BECAUSE THE REASONS OF OUR CREDIBILITY ARE:

- Experience in the flat wire machine production.
- High quality material used.
- Technical cooperation with all our customers for improving the quality and machine's reliability.
- Lower electrical energy consumptions and air pollution values.
- Technical solutions for easy working conditions and lower maintenance cost.
- Availability to tailor made machines design, in according to customer requirements.
- Reasonable price comparing the machine quality.
